Career Objective:

Mechanical Engineering graduate with a passion for coding and problem-solving, now pursuing a career in python development. Looking for an entry-level opportunity to apply technical skills, contribute to projects, and continuously learn new technologies.

Education:

B-Tech [Mechanical Engineering]

PVKKIT [Autonomous], [Anantapur] - [2025]

Percentage: 80%

Technical skills:

Database: SQL

Front end: HTML, CSS

Back end: python

Additional Supporting Skill: word, Excel

Project:

Student Management System (python, MySQL):

Designed and developed a CRUD-based application to manage student records using python and MySQL. Implemented user authentication, role-based access, and data validation for secure record management. Optimized database queries to ensure fast retrieval and smooth handling of large datasets. Built a simple Tkinter-based GUI (if you used GUI) for easy interaction with the system.

Strengths:

- Strong problem-solving and debugging skills
- Quick learner with adaptability to new technologies

- Good communication & teamwork abilities
- Good at Team Leading.

Declaration:

I hereby declare that the information provided above is true to the best of my knowledge

Place: Anantapur
